

CHRONIC DISEASE PROGRAM INTEGRATION LEARNING COMMUNITY

VISION: An environment for continuous learning across chronic disease programs to promote the exchange of relevant tools, resources, and approaches for program integration.

PROGRAM INTEGRATION - ON DEMAND!

- a component of the Chronic Disease Program Integration Learning Community

This interactive workspace is one of multiple communication channels available for CDC staff and external partners to participate in program integration conversations, activities, and information exchange.

Allows participants to:

- ☒ receive updates about integration activities from different sources
- ☒ learn from and contribute to discussions
- ☒ have a forum for joint problem-solving
- ☒ exchange information on topics relevant to program integration

PROGRAM INTEGRATION - NETWORKING NOW!

- a component of the Chronic Disease Program Integration Learning Community

Through quarterly conference calls, state and territorial program integration points of contact and chronic disease staff, and NACDD partners will have an opportunity to actively participate in discussions surrounding program integration topics of relevance and interest.

Allows participants to:

- ☒ share information about tools, strategies and tactics
- ☒ hold conversations focusing on common issues
- ☒ talk about solutions to common problems
- ☒ identify colleagues who could provide peer-to-peer technical assistance

PROGRAM INTEGRATION – LIVE!

- a component of the Chronic Disease Program Integration Learning Community

These web-based seminars will provide a forum for all states and partner organizations to receive and share information via 'live' presentations, panel discussions, and Q & A sessions on topics relevant to program integration. These webinars will be offered two times a year.

Allows participants to:

- ☒ hear from ASTHO, CDC, NACDD leadership regarding latest updates and new directions
- ☒ listen to presentations about various topics relevant to program integration
- ☒ participate in live presentations/ panel discussions and be able to ask questions
- ☒ share information to a broader audience about their own work and experiences on integration
